

The Company

About us

B+H Solutions GmbH develops and produces innovative products for sustainable agriculture with **nanotechnology**

With our technology we focus on developing ecological products for plant applications

Our products help to save resources with their improved properties

For years, our products are a **revolution in agriculture**

Vision

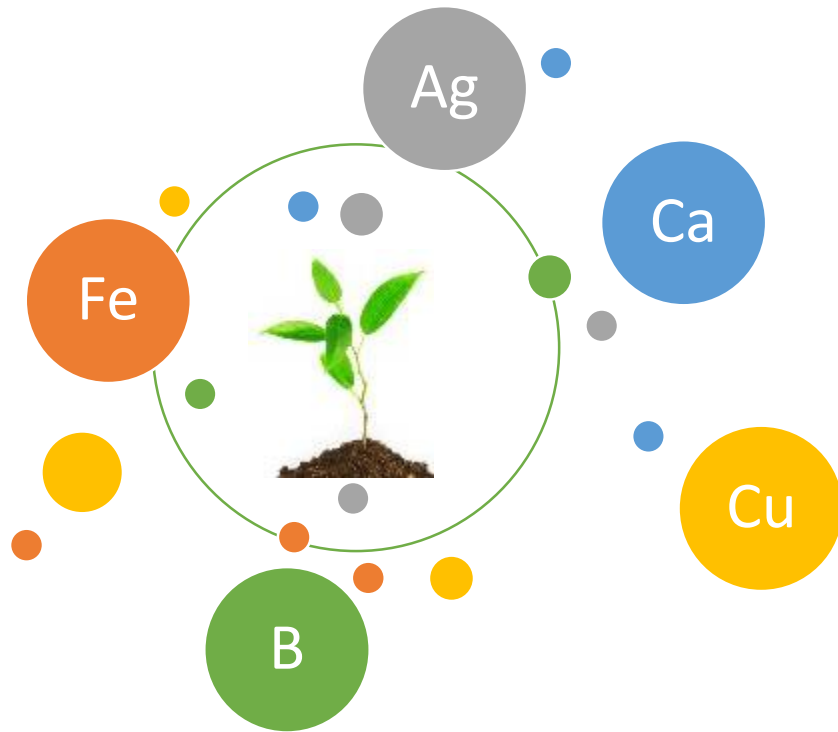

B+H Solutions GmbH shall provide smart solutions to the problems faced by the agricultural sector today

The solutions we provide shall demonstrate a great range of innovative **ecology** and bring the maximum level of **economic** success to the farmers

The objective in the long-term should be to reduce as many chemical pesticides as possible in agriculture

Importance of trace elements

Trace elements are essential for the good development of the plants

Symptoms such as chlorosis, lack of strength and brightness, necrotic spots, susceptibility to infection, etc. are caused by the lack of trace elements

With our technology we have developed products that provide the plants with the necessary amount of trace elements in **the most efficient manner**

A revolution in agriculture

AgroArgentum®

Unique and ecological solution based on the power of silver

The best liquid iron fertilizer

AgroFerrum®

The first fertilizer with elementary copper

AgroCyprium®

New technologies in agriculture and friendly to the environment

Calcium and magnesium from naturally degraded rock

AgroCalcium®

Our experience

Vegetables

*Novelty in nutrition for
all kind of crops*

Turf

Fruits

Berries

Flowers and
ornamentals

Cereals

...and many more

Advantages of our system

✓ **AgroArgentum**[®] is the best root stimulator: maximum development of roots with better quality, length and thickness

✓ **AgroArgentum**[®] promotes flower formation: up to 15% more flowers, and consequently more fruits, bigger and with better quality

✓ **AgroArgentum**[®] enhances the photosynthesis, thus resulting in a plant with more energy and more carbohydrate production: more and earlier harvest

Advantages of our system

✓ **AgroCyprum**[®] and **AgroArgentum**[®] are the best in building tolerance in the plants: reduction, even elimination of pesticides

✓ **AgroFerrum**[®] is the best iron fertilizer with regards to mode of action and with the lowest cost. It works at every pH-value

✓ **AgroCalcium**[®] avoids all deficiency symptoms: Plants develop strong and tolerant

Advantages of our system

- ✓ All our products allow effective and precise nutrient management due to their high reactivity, enhanced bioavailability and bioactivity

- ✓ All our products are registered as EC fertilizers under Reg. (CE) 2003/2003

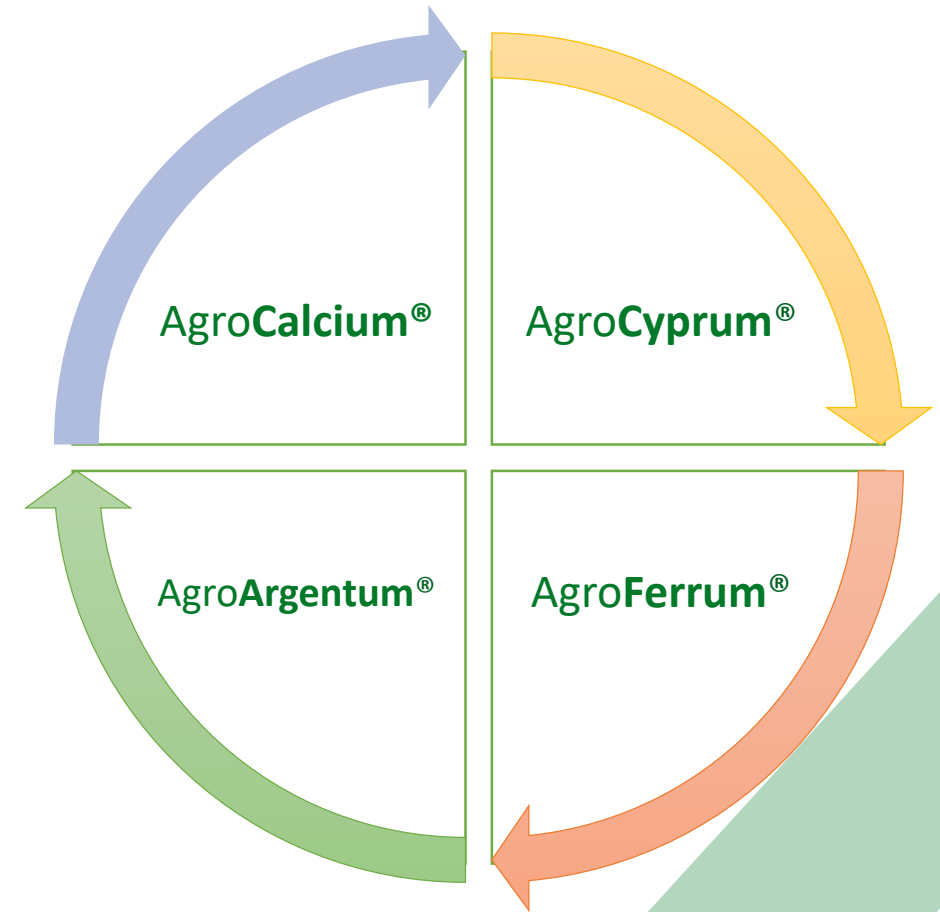

- ✓ None of our products are pesticides
- ✓ None of our products are harmful to insects

Synergism

All the products work perfectly together

There is a **synergistic effect** between all trace elements, making the **mixture of colloidal metals** the best option for your crop

Our team will be pleased to advise and assist you with specific protocols

Application

Field sprayer

*Easy and convenient
for greenhouse and
field crops*

Endotherapy

Irrigation system

Drip irrigation

Cold fogging

Conclusion

B+H Solutions GmbH provides perfect tools for sustainable agriculture

Our solutions not only increase productivity, but are also environmentally friendly

The client feedback we receive year after year worldwide pays testament to the efforts this company has put into ensuring that you achieve your goals

We want to be part of your success!
